EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The non-elected claims 1-7 have been canceled. These claims were non-elected without traverse in the election filed 4/23/04.

Changes To The Drawings

2. The following changes to the drawings are required and have been approved by the examiner: Figures 1A-1E and 2A-2B should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). In order to avoid abandonment of the application, applicant must make these above drawing changes.

Reasons For Allowance

3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or to suggest, either alone or in combination, the steps of the claimed invention. The closest prior art of record, Kubota et al. (US 6,270,393) fails to teach the step of "removing the conductive material deposited on said insulating film by CMP using a CMP slurry to expose said insulating film, said CMP slurry comprising a solvent, abrasive grains and a silicone-based surfactant having an HLB value ranging from 7 to 20". Although Kubota does

Art Unit: 2812

teach CMP of an insulating layer using a slurry with a solvent, abrasive grains and a surfactant with an HLB value not less than 5 (or not less than 10), there is no teaching or suggestion that the slurry may be used on a conductive layer in the context of the claimed invention wherein a conductive material is deposited inside a recessed portion in an insulating film.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lynne A. Gurley whose telephone number is 571-272-1670. The examiner can normally be reached on M-F 7:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Niebling can be reached on 571-272-1679. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
